

CHLOROJEEVANTM

PLC BASED AUTOMATIC CHLORINATION SYSTEM

 Smart Chlorination for
Safe & Clean Drinking Water

ACCURATE DISINFECTION SYSTEM WHICH IS BASED ON

-  A stable solid chlorination agent **Sodium Dichlorocyanurate Dihydrate** containing Chlorine **55%**.
-  Accurate automatic dispensing & dosing mechanism.

Chlorojeevan is a continuous, accurate & reliable disinfection system designed to deliver safe drinking water through precise chlorine dosing with PLC automation.

ACCURATE DOSING

Precise & automatic chlorine dosing for consistent water quality.

PLC CONTROL SYSTEM

Advanced PLC with HMI for fully automatic operation & monitoring.

SAFE & RELIABLE

No manual handling, no scaling, better safety & storage stability.

SMART MONITORING

Optional GPRS based online monitoring of residual chlorine.

ENERGY EFFICIENT

Low power consumption, solar compatible (optional).

IDEAL FOR

Rural & Municipal
Water Treatment Plants

Ranches, Military
Bases & Resorts

Greenhouses &
Packing Houses

Fish Processing
Plants

Animal Watering
Systems

Sterilization of Organic
Matter & BOD Reduction

Reliable. Accurate. Automated.
For a Healthier Tomorrow.
